INTRODUCTION

The Geographic Distribution of Expenditures (GDX) for fiscal year 1988 is published by the Department of Veterans Affairs (VA) in order to present major program expenditures estimated by county and congressional district (CD) within each state.

The presentation of these data differs from that of previous years, as a result of two changes.

- The Direct Loans column was deleted because there was no activity.
- Where a county contains more than one congressional district (all or in part), estimated expenditures for that part of the CD within the county are shown. Where a county is contained within a CD, the CD number is shown after the county name. A summary of expenditures by CD is presented after the county estimates are presented for a particular state.

Abbreviations used in the GDX are defined as follows:

- "T." shown after a county name indicates county total; and
- "ST" shown after a state name indicates state total,

Users of the publication are reminded that the information presented here represents the VA's best estimates of expenditure activity and should not be construed as an accounting document. To expand the reader's knowledge of the data sources used to compile this publication and to provide information on any changes to the data, a brief discussion of each data category is provided below. The Catalog of Federal Domestic Assistance published by the Office of Management and Budget and the U.S. General Services Administration provides more information on each program.

Compensation and Pension, Readjustment and Vocational Rehabilitation - The data for these categories are from the VA's Federal Assistance Awards Data System (FAADS).

The compensation and pension category includes expenditures for veterans' compensation for service-connected disability; compensation for service-connected deaths for veterans' dependents; veterans' dependency and indemnity compensation for service-connected deaths; pension for nonservice-connected disability for veterans; pension to veterans' surviving spouses and children; and burial expenses allowance for veterans.

The readjustment and vocational rehabilitation category includes expenditures for automobile and adaptive equipment for certain disabled veterans and members of the armed forces, specially adapted housing for disabled veterans, veterans educational assistance (post-Korean veterans, Chapter 34), dependents educational assistance (Chapter 35), vocational rehabilitation for disabled veterans (Chapter 31), post-Vietnam era veterans educational assistance (Chapter 32), emergency job training, and the Montgomery GI Bill (Chapters 30 and 106).

County level estimates for compensation and pension expenditures and for education expenditures are based on converting ZIP code data to county codes. For the fiscal year 1987, a new process was implemented and thereby produced more accurate distributions where ZIP code areas crossed county lines. This same procedure was used again for fiscal year 1988 distributions.

Insurance and Indemnities - The data reported for this category are estimates of the VA expenses concerning payment of death claims, matured endowments, dividends, cash surrender payments, total disability income provision payments, and total and permanent benefits payments. The estimates are based on statistical allocations using the veteran population to disperse amounts to geographic locations.

Construction and Related Costs - Information on major and minor construction projects is reported on an actual basis using accrued expenditures data derived from the Centralized Accounting for Construction Appropriations (CASCA) system.

Medical Services and Administration Costs - Information is reported on an actual basis using accrued expenditures data derived from the automated Nationwide Trial Balance system. The specific programs reported for this category are medical care, medical administration and miscellaneous operating expenses, medical and prosthetic research, and general operating expenses.

Note that expenditures for headstones, markers, and burial flags are not included in the GDX. This data is reported to the Office of Management and Budget through the Federal Procurement Data System.

Requests for copies or questions related to this publication may be referred to Carolyn Wong on (202) 233-2525 (FTS 373-2525) or by writing to:
